About me

I am a student at the University of Westminster looking for work. Through my experience as a FANS Leader and as an Oxfam volunteer I have honed my communication skills, alongside my ability to maintain professionalism. I have a deep rooted passion for web development, which also means my knowledge and ability to use technology is always a priority for me, making me a versatile and valuable asset.

Experience

Form Representative at Langdon Academy (Duration : 1 Academic Year)
Role description : Part of a student council of 20+ students within the year group and members of faculty, for the purpose of improving the school experience

FANS (Friend To Arriving New Students) | (September 2024 - October 2024)
Role description : Organizing and hosting engaging events during Welcome Week to help new students feel prepared for the academic year, including but not limited to creating a sense of belonging and familiarity with the university by facilitating social gatherings, campus tours, and informational sessions over a span of four days.

Shop Assistant | Oxfam (July 2024 - Present)
Role Description : Overseeing the efficient and sustainable operation of the store by actively participating in all parts of the shop process. This includes collecting and sorting donations, pricing items, and displaying them on the shop floor to maximise revenue, which directly supports charitable causes.

Key Skills

- **Communicating within a team -** Took part as a form representative with 20+ other representatives and 4+ teachers, also through volunteering at Oxfam with multiple colleagues and staff.
- **Time management -** Had to balance 3 university level courseworks and 1 test during Ramadan where I had to fast throughout the whole day.
- **Proactive mindset -** Achieved by planning activities for new university students, and through taking initiative at Oxfam when we are understaffed.
- **Professionalism -** Achieved by working with other volunteers and managers at Oxfam to create a healthy work environment to prosper teamwork.
- **Attention to detail -** Key skill cultivated through programming, where even the smallest mistake can lead to major bugs and errors.
- **Leadership -** Led a group of new students around the campus as a FANS, while holding a Q&A to clear up doubts or questions they may have.
- **Meeting deadlines -** Achieved through averaging over 70% in my first year of university.

Education

Langdon Academy (2016-2021) - 11 GCSEs Grades 8-4 including English Language (7), Maths (7), Computer Science (8)
